**Name:** Jim A. Turner

**Job Title/Classification:** Physical Scientist (GS-1301-13)

**Org. Code/Name:** WO-200, Renewable Resources and Planning

**Telephone Number:** 303-236-0840

**Past Experience:**

- Project Manager for Enterprise GIS Implementation; Bureau of Land Management; Washington Office - Renewable Resources and Planning; Current Position
- Project Manager for Enterprise GIS Implementation; Bureau of Land Management; National Science and Technology Center (NSTC); 1 year
- Physical Scientist; Bureau of Land Management; National Science and Technology Center (NSTC); 1 year
- Geographic Sciences Laboratory Manager; Bureau of Land Management; National Applied Resource Sciences Center (NARSC); 5 years
- Supervisory Geologist; Bureau of Land Management; Service Center; 6 years
- Remote Sensing Geologist; Bureau of Land Management; Service Center; 3 years
- Resource Area Geologist; Bureau of Land Management; Rio Puerco Resource Area; 6 years.
- Engineering Geologist; Bureau of Reclamation; Yuma Projects Office; 4 years
- Electronics Technician (Radar); U.S. Air Force; 4 years.

**Types of Projects Interested In:**

Based on my background in earth science, remote sensing, and GIS, I am interested in projects that target the integration of science and technology into the Bureau's business processes. Specifically, I am interested in projects that have the potential to re-engineer the Bureau's business processes by incorporating remote sensing and geographic information technology.

**Availability:**

I am currently in a temporary (120 day) detail to the Headquarters Office as Project Manager for Enterprise GIS implementation. After completion of the detail, I intend to compete for the position of Project Manager for the projected four year term of the project.
